BSIT 2A2

Approved Title:

Library Management System

A library system helps manage book inventory, member records, and borrowing transactions. It enables librarians to track book check-ins, check-outs, and overdue fines efficiently.

System Objectives:

- Provide fast and accurate search capabilities (by title, author, subject, ISBN, etc.).
- Facilitate borrow and return of books with due dates and receipts.
- Manage member profiles (students, faculty, staff).
- Organize and manage inventory of books.
- Track the availability, and status of each book.

Key Features

1. Login Page

Purpose: Provides a secure system access for authorized staff/administrators of library.

2. Dashboard

Purpose: provide a **centralized, real-time overview** of important information and activities within the library.

Dashboard Display: No. of books, No. of issued books, No. of issued books by students and Top borrowers.

Navigation Menu: Manage Books, Manage Students, Issued Books, Return Books, View Issued Books, View Return Books, Defaulter List, Archive and About

3. Manage Students
Purpose: Allows administrators to manage students borrowing in the library.
Table Columns:

- Borrower ID
- Borrower Type
- Borrower Name
- Section

Control Buttons: Add Button, Update Button, Delete Button

4. Manage Books
Purpose: Stores and organizes books.

Table Columns:

- Book ID
- Book Name
- Author Name
- Quantity

Control Buttons: Add Button, Update Button, Delete Button, Borrow Button.

5. Issued Books
Purpose: Allows borrowers to find and borrows books.
Table Columns: Borrower Details and Book Details.
Control Buttons: Borrow Button and Find Button.

6. Returned Books
Purpose: Allows borrowers to return the books.
Table Columns: Borrower Details and Book Details.
Control Buttons: Return Button.

7. View Issued Books
Purpose: Tracks books borrowed over time.
Table Columns: Borrower Details and Book Details.
Control Buttons: Find Button and Search Button.

8. View Return Books
Purpose: Tracks books returned.
Table Columns: Borrower Details and Book Details.
Control Buttons: Find Button and Search Button.]

9. Archive

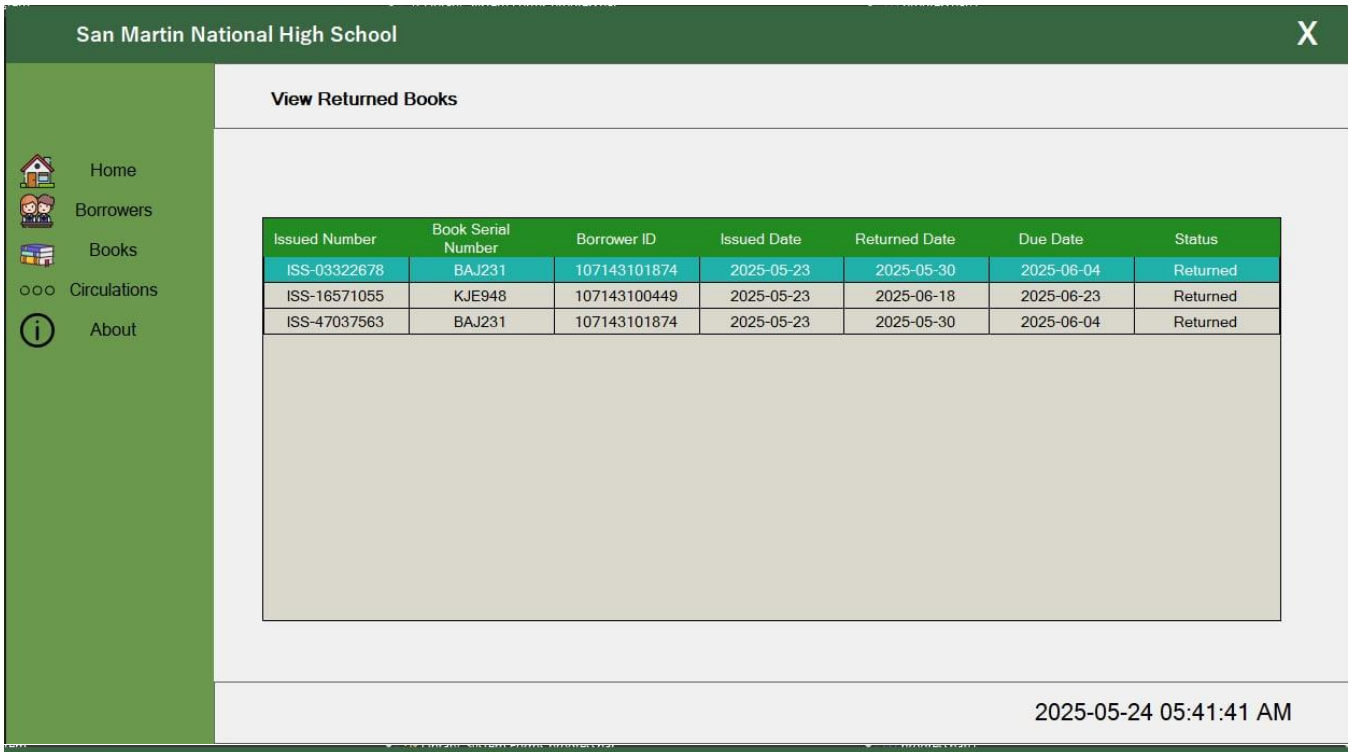

Purpose: To **see borrowers and book details** for books that are **out of stock (unavailable)** or **deleted** in a library system, the system needs to keep **history logs** or **archived records.**

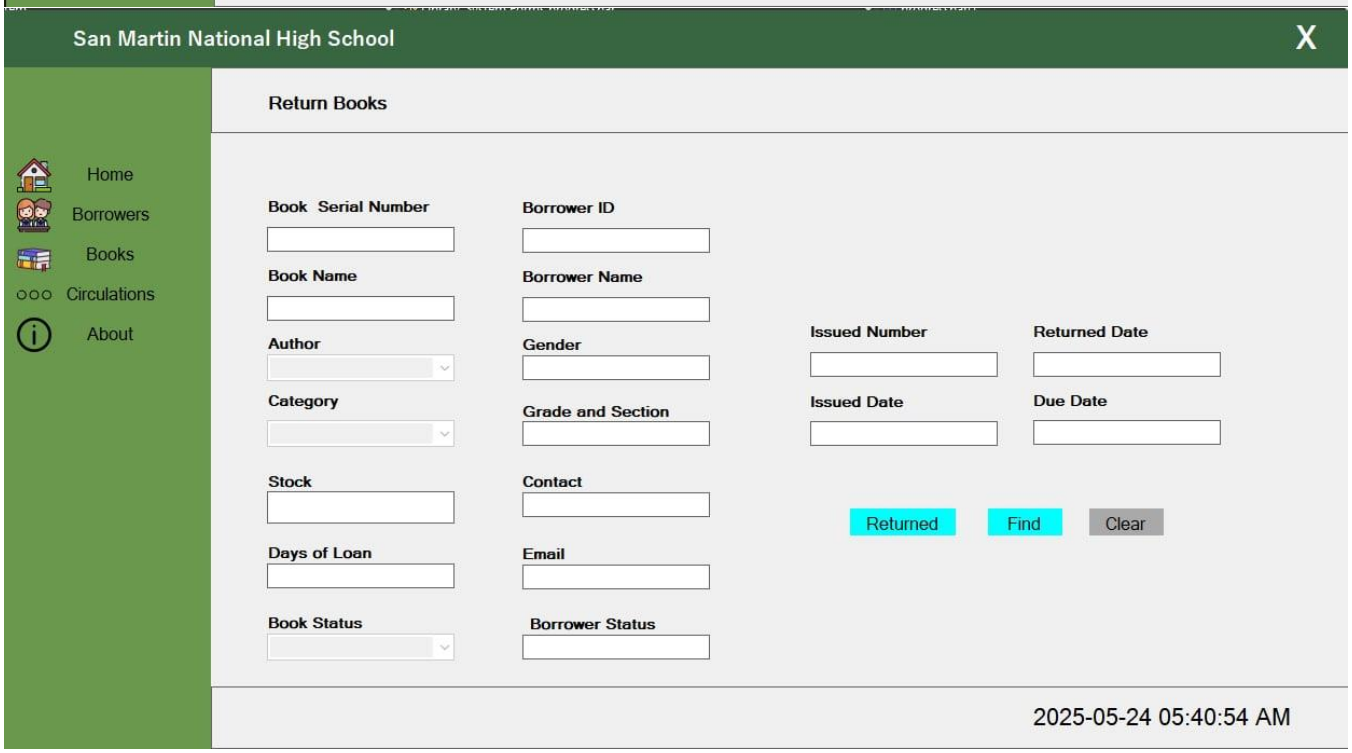

Table Columns: Borrower Details and Book Details.

Control Buttons: Search Button.

Conclusion:

The library system management helps make library tasks easier and faster. It keeps track of books, borrowers, and returns, so everything stays organized. With this system, users can find books easily, and librarians can manage the library more efficiently. Overall, it helps the library run smoothly and better serve its users.
